SUBJECT: **MANITOBA AGRI-FOOD EXPORTS, 1993 - 2000**

- Preliminary trade data show that total Manitoba agri-food exports increased by 3.2 percent in 2000 to $2,504.6 million, despite a significant decline in the value of canola oil exports.
- Manitoba exported more processed food products in 2000 than in the past, mainly due to increased sales of pork. Food exports amounted to a record 23.3 percent of total agri-food exports in 2000.
- Exports of wheat rose by 19.2 percent to $547.2 million in 2000 due to a return to more normal production levels after the excess-moisture-reduced crop in 1999. Barley exports increased by 41.3 percent to $38.3 million. Lower grain prices and increased domestic demand for feedgrains have lowered the value of grain exports since the mid-1990s.
- Canola seed exports, at $296.6 million in 2000, decreased by 14.3 percent from 1999, while flaxseed exports fell by 12.0 percent to $64.4 million. Exports of canola oil dropped by more than 60 percent in 2000 to $93.2 million as a result of the smaller crop and decreased crushing activity during the year. In the peak year, 1998, canola oil exports amounted to $488.3 million.
- The value of dry bean exports decreased by 10,1 percent from the record level of $54.4 million in 1999 to $48.9 million in 2000.
- Cattle export value increased by 6.5 percent to $188.3 million in 2000. Although 2.5 percent fewer cattle were shipped to the United States in 2000, prices were higher.
- With increased sales and higher prices, the value of hog exports rose by 25.6 percent to a record $207.6 million in 2000. Pork exports, also at a new record level of $398.4 million in 2000, were up by 66.1 percent from 1999 and were five times the value five years earlier.
- Exports of frozen potato products increased significantly from $2.7 million in 1994 to $143.5 million in 1999, but declined by 11 percent to $127.7 million in 2000.
